## REPORT OF SUPERINTENDENT OF SCHOOLS

---

To the Citizens of Greenwood:

If you are so unfortunate that you must have a new superintendent of schools every year you will never be able to get a report of the conditions of your schools for a full year. A new man has to get acquainted with all the local conditions and as a rule he is unable to give a satisfactory report for the first town meeting. However, after reading the report of your former superintendent I think you would not need another report for this year, at least.

In the first place I want to congratulate the town on the excellent little school buildings you have, they are up-to-date, neat and cozy and are a real credit to the town. The ventilating in the buildings is poor but the committee is planning to install ventilating systems as fast as the State Department gets the money for our use. We have jacketed all the stoves but that would be of little value unless we install the ventilating systems.

The building at Locke's Mills was shingled last fall and the building in the Tubbs district will be shingled this year. Several other smaller repair jobs have been done by your committee last summer and fall.

We are planning to increase the school year one week at least this year and two weeks if the money holds out. The unexpended balance in the Common School Account will be most gone by the time this report is printed, we have closed the books this year Jan. 31 and the pay of the teachers and other expenses in that department for the time between Jan. 31 and the March meeting will come out of this unexpended

balance. I speak of this so that you may see that all the money raised will be expended for this school year.

We have had to close several schools for a few weeks on account of the epidemic but I think that the time in most cases will be made up.

There is a small overdraft in the Text-Book Account. We will have to have more money for this department next year. Your committee found it necessary to make an overdraft in the Repairs Account and have suggested an increase for next year.

I shall not deal in this report with the teaching force in your schools, conditions have been such that I am not ready to make a public statement concerning the teachers. I will say, however, that we plan to do our best with the money available and will get you the best teachers we can for your schools. I had called a general teachers meeting for this union last fall but it had to be called off on account of the epidemic at Bethel.

Your committee recommends that the town raise the following amounts for your schools for the ensuing year:

Common Schools,	\$1,600 00
High School Tuition,	175 00
Text-Books,	125 00
Repairs and Supplies,	200 00

In closing I want to thank all who have assisted in making our school system as successful as it is.

Respectfully submitted,

CHARLES E. LORD, Superintendent.
